

VALUEWORKS DIGITAL — DELIVERY PROPOSAL

Executive Summary

We provide a practical and cost-conscious implementation with a focus on fast delivery.

Technical Capability

Web application, REST APIs, cloud hosting and relational database are proposed. Standard integrations are supported.

Implementation Plan

A 12-week plan covers requirements, development, testing and deployment. Weekly status reporting is included.

Commercial Value

Fixed price of \$120,000 with low operating cost. The proposal emphasizes value for money and predictable billing.

Security & Compliance

Basic encryption, authentication, backups and access controls are included. Compliance requirements will be assessed during implementation.

Support & Experience

Five years of software delivery experience. Business-hours support and a 99.5% uptime target are included.
